

Cryptic Anacrostic

submitted by Anna van den Bergen and J. H. Turner,
Fremantle Hospital, Western Australia

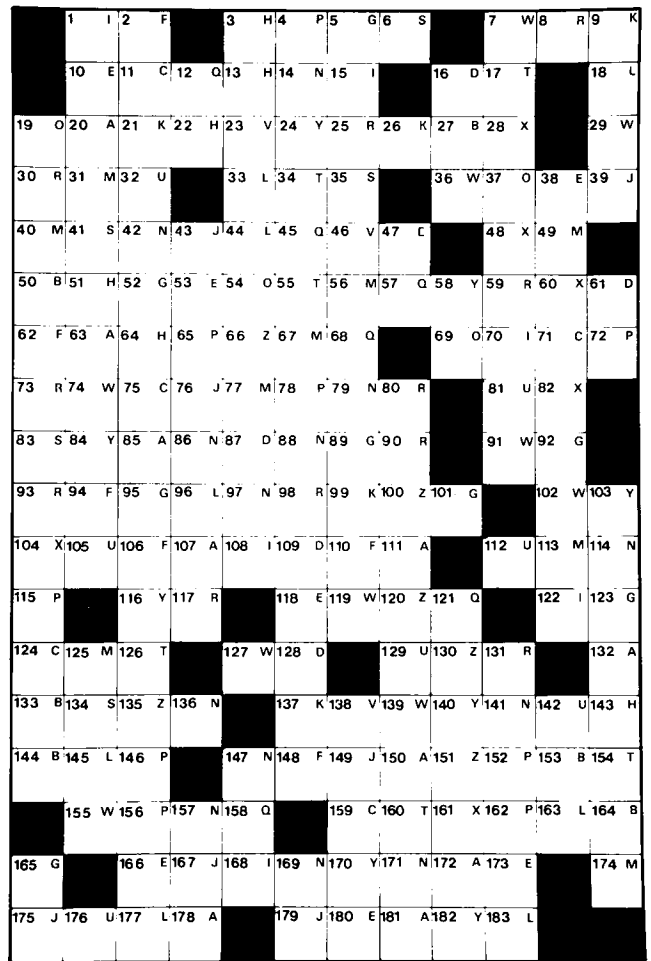

Here's how to do it. The diagram, reading across only, contains a quotation from the nuclear medicine literature. Black squares represent word endings. Fill in the defined words and place the letters in the correspondingly numbered squares in the diagram. The first letter of each answer in the Words column, reading down, spells out the author and the source of the quote. The solution will appear in the next issue of the *JNMT*.

Definitions

- A. Initially this cat's parent added fifty to dumb money exchanged for a cow.
