## *Search for the Next Editor*

According to the Technologist Section Bylaws, an individual may hold the position of Editor of the *Journal of Nuclear Medicine Technology* for two terms of three years each. I am currently in the second year of my second term.

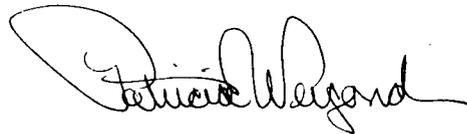

Therefore, the search for a new Editor is officially open. It is the intention of the Publications Committee that we advertise for applicants, review the candidates' credentials, interview the applicants and select the person for National Council approval by the next Annual Meeting of the Society in June 1982 in Miami.

After the selection, the Editor-Elect and I will work together so that we can effect a smooth transition of the *JNMT* by January of 1983 when the new Editor takes office.

I would like to encourage each of you to think about applying for this position. The Editorship is a fantastic learning experience, probably unique in the Technologist Section and nuclear medicine technology in general.

The specific application procedure may be found in this issue of the *JNMT* on page 140. I would be pleased to discuss any aspects of the position and encourage you to call or write to me.

Don't let this exciting opportunity pass you by!!!

PATRICIA WEIGAND, CNMT
