

# PLACEMENT

**NUCLEAR MEDICINE TECHNOLOGIST.** 500-bed teaching hospital in community of 100,000 on Lake Superior. One person section of Radiology Dept. (No in vitro studies). Nuclear-Chicago gamma camera and Tracer Lab 1000 scaler. Contact Personnel Director, St. Luke's Hospital, Duluth, Minn. 55805

**CHIEF TECHNOLOGIST, NUCLEAR MEDICINE.** Department in active 440-bed teaching hospital. Expanding department needs Chief with strong background in physics and instrumentation. Supervisory experiences required. Contact Personnel Department, The Swedish Hospital Medical Center, 1212 Columbia, Seattle, Washington 98104. (206) 292-2141

**NUCLEAR MEDICINE STAFF TECHNOLOGIST.** Position open for Staff Technologist in large 1800-bed hospital. Should have camera, single and dual scanner, and wet work experience. Hospital benefits, salary commensurate with experience and qualifications. Contact: J. F. Rockett, M.D., Nuclear Medicine Division, Baptist Memorial Hospital, 899 Madison Avenue, Memphis, Tenn. 38146

**NUCLEAR MEDICINE TECHNOLOGIST.** Immediate opening in an active,

progressive Division of Nuclear Medicine in 800-bed hospital and teaching institution. Acceptable training, capability of performing broad range of nuclear medicine procedures, registered NMT or registry-eligible. Good salary and benefits. Contact Jack K. Goodrich, M.D., Director, Division of Nuclear Medicine, Duke University Medical Center, Box 3223, Durham, North Carolina, 27710. Tel. (919) 684-5454

**NUCLEAR MEDICINE TECHNOLOGIST.** Expanding community hospital located in Palm Springs, California requires technologist with ARRT or ASCP registration in nuclear medicine. Equipment includes Nuclear-Chicago Pho/Gamma HP camera, probe and well counters, Dose Calibrator, and Picker 5-in. Magnascanner with Adams-Jaffe Color. Computer experience related to nuclear medicine is desirable. Send resume and salary requirements to: Brent Mockbee, Technical Director, Radiology Services, Desert Hospital, P.O. Box 1627, Palm Springs, California 92262

**NUCLEAR MEDICINE TECHNICAL DIRECTOR.** New professional position in Texas Medical Center for technologist interested in major supervisory responsibility in a medical-school-affiliated laboratory.

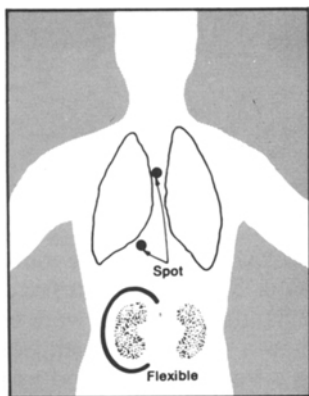

Will head a well-equipped nuclear medicine department serving the 1100-bed St. Luke's Episcopal Hospital, Texas Children's Hospital, and Texas Heart Institute complex. Instrumentation consists of three scintillation cameras, computer, scanner, thyroid uptake system, liquid scintillation counter, automatic gamma counter, and others used to perform a broad spectrum of tests including dynamic function studies and radioimmunoassay. Need nuclear medicine laboratory experience; administrative training is desirable but can be provided for exceptional applicant. Opportunity to grow professionally with laboratory expanding in facilities and personnel which now includes eight technologists, five secretaries, and eight full-time faculty members of Baylor College of Medicine. Contact John A. Burdine, M.D., Chief, Nuclear Medicine, St. Luke's Hospital, 6720 Bertner, Houston, Texas 77025.

**NUCLEAR MEDICINE TECHNOLOGIST.** Immediate opening, 1100-bed private hospital with medical school affiliation in Texas Medical Center. Well-equipped expanding laboratory with three scintillation cameras and computer. Contact John A. Burdine, M.D., Chief, Nuclear Medicine, St. Luke's Hospital, 6720 Bertner, Houston, Texas 77025.
