## SAUDI ARABIA

### CHALLENGING OPPORTUNITIES RISING FROM THE SANDS OF TIME

Your adventure begins as you fly half-way around the world, leaving behind familiar customs. You're embarking on an odyssey that few people only dream of.

You'll be part of the King Fahad Hospital in Riyadh, Saudi Arabia. This projected 500-bed (31 beds opened in Nov., 1982), general acute-care facility and medical city complex is one of the most sophisticated state-of-the-art hospitals in the world.

#### NUCLEAR MEDICAL TECHNOLOGIST

This position requires a minimum of three years experience. You must be registered as both a Nuclear Medical Technologist as well as a Radiology Technician.

The above positions require eligibility to travel on a U.S. passport and the acceptance of a 1 or 2-year single-status (i.e. without dependents) contract.

You'll be part of an international community, see areas of the world most people only read about, enjoy substantial salaries that are U.S. tax-free and receive an overseas benefits package that's hard to beat.

To begin your adventure, call or write Barbara Nixon.
