
Letter from the Editor

Readers and Reviewers

The responses to the reader survey published in the March 1983 issue have been tabulated. My thanks to those who let us know what you would like to see in your Journal.

Your responses indicate a strong interest in the continuing education series and we will be instituting an additional series beginning with the March 1984 issue. This new series will discuss radiopharmaceuticals and will run concurrently with the nuclear cardiology series now in progress. In addition, other more subtle changes will be made in the Journal over the next several issues.

Thanks, again, for your response. Please feel free to let me know your thoughts about the Journal. It is *your* publication and we appreciate your guidance.

On another note, it is a pleasure to take this opportunity to thank those steadfast individuals who have reviewed manuscripts submitted for publication this past year. It is a time-consuming job and without their efforts, there wouldn't be a JNMT. Their expertise, counsel, and support are incalculable. My thanks to:

GEORGE W. ALEXANDER, JR., CNMT
WILLIAM J. BAKER, MS
PATRICK J. BARRETT, CNMT
DONALD R. BERNIER, CNMT
HENRY M. CHILTON, PharmD
JANE H. CHRISTIE, CNMT
