## NUCLEAR MEDICINE FACULTY POSITION

A full-time faculty position in Nuclear Medicine is available at the University of Oklahoma, College of Allied Health, Department of Radiologic Technology. Four baccalaureate degree programs in Radiography, Nuclear Medicine, Radiation Therapy and Sonography are offered in this multidisciplinary academic unit.

Primary responsibilities include didactic and clinical teaching consistent with fully accredited educational programs at the baccalaureate degree level and full participation in a multidisciplinary department in a major academic health center.

The University of Oklahoma is an equal opportunity employer. A Masters degree is required; certification in ARRT and/or NMTCB. Certification in one of the other three departmental disciplines is highly desirable. Also required is a minimum of 2 years teaching experience and a minimum of 3 years progressive clinical experience in Nuclear Medicine. Salary and academic rank will be commensurate with qualifications and experience.

**Closing date for applications is .....April 1, 1993**

**Opening will be available .....July 1, 1993**

Send Curriculum Vitae including a narrative (abstract) of professional career, name, address and phone of (3) references to:

**Donald G. Nichols, M.Ed., M.P.H., R.T.**

*Associate Professor and Chairperson/Search Committee  
Department of Radiologic Technology*

## STAFF NUCLEAR MEDICAL TECHNOLOGIST

NOW is the perfect opportunity if you are ready for your career to take off. Practice Nuclear Medicine at one of New Jersey's largest hospitals.

If you have a New Jersey state license or are registry eligible, an Associate's degree or Bachelor's degree and one (1) year attendance in an approved Nuclear Medicine program you might be just the person we're looking for.

Responsibilities include performing radionuclide procedures on patients inclusive of organ imaging, function studies and assisting the physician in the therapeutic use of radionuclides. You will also prepare and administer radiopharmaceuticals and maintain records in accordance with state and federal regulation. Assisting in instruction for student techs makes this position even more exciting.

Make the choice to join Morristown Memorial Hospital, a 650+ bed tertiary care facility with approximately 3,500 employees located in north central New Jersey. We offer competitive salaries and excellent benefits. Send your resume to Deborah Carlino, Employment Manager, MORRISTOWN MEMORIAL HOSPITAL, 100 Madison Ave., P.O. Box 1956, Morristown, NJ 07962-1956.
