

**TECHNOLOGIST
JOB
NETWORK**

The New England Chapter of the SNM-TS announces "The Job Hotline," a national toll-free hotline for nuclear medicine. The hotline is designed to provide a quick link for technologists seeking jobs and for hospitals seeking technologists. Institutions seeking technologists should call the hotline number, leave the name of the institution, title of the job opening, and name and number of the contact person. Data are then stored for three months in a database for anyone who calls the hotline seeking employment. Technologists seeking employment should call the hotline number, specify states which are of interest, specify type of job desired, and leave a name and address. A listing will then be sent out in 48 hours; all inquiries are kept confidential. If an opening has not been filled within three months, the institution should call again to have it relisted. The institution should also call if an opening has been filled so that it can be deleted from the database. The hotline numbers are **1-800-562-6387 (1-800-JOB-NETS)** or **1-990-4212** in Maine. Questions or comments should be directed to: Tom Starno, Manager, Job Hotline, SNM-TS New England Chapter, at **(207) 945-7186**.

The Mideastern Chapter of the SNM-TS will provide a referral network for technologists seeking employment and for hospitals in need of technologists. Interested individuals should call Robert Steinman at **(302) 421-4365**. Please leave your name, address, phone number, and a brief description of your request.

Editor's Note: SNM Chapters are invited to submit job referral service listings for publication. Pertinent information, such as name, a brief description of the service, telephone numbers, addresses if desired, and name and number of contact person for inquiries should be sent to Mark A. Newman, Section Editor, *JNM/JNMT*, Society of Nuclear Medicine, 136 Madison Avenue, New York, NY 10016-6760.
