

New Perspectives In Patient Care

At Saint Agnes Medical Center, we're taking a different look at healthcare delivery systems. We're integrating our services...investing in technology...and creating innovative programs that respond to the community. Our university-affiliated Nuclear Medicine Department has long been considered a world pioneer in SPECT studies and offers Staff Technologists access to the newest techniques and most advanced technology in the industry. Come be a part of our visionary healthcare team.

Nuclear Medicine Technologist

In this full-time position, you will perform a wide range of diagnostic procedures, using Picker 2000 and 3000 SPECT systems, one Siemens Orbitor, a Siemens LEM portable camera, and Picker and Medasys computers. In addition to a BS degree in Nuclear Medicine or an approved training program, you'll need California certification and you should be NMTCB or ARRT certified or registry eligible. Good judgement and sensitive patient interaction skills are a must. Call time is required.

As a major healthcare provider in Central California, our advanced environments and progressive patient care practices offer a new venue for professionals like you. We are also pleased to provide a highly attractive salary and benefits package in one of the best locations of all. For consideration, we invite you to send or fax your resume to: **Paige Dilla, Saint Agnes Medical Center, Human Resources, 1111 E. Spruce Street, P.O. Box 27590, Fresno, CA 93729-9822, fax (209) 449-5229.** We are an equal opportunity employer.
