

Assignment of Copyright

Journal of Nuclear Medicine Technology (*JNMT*) is pleased to publish your article:

Manuscript Title: _____

MS Number: _____

Date: _____

Section A—to be completed by non-U.S. government employees.

(If the article has multiple authors, each author must individually transfer his or her copyright in the work by signing this section. If the article is not published in *JNMT*, the following copyright transfer agreement will not take effect.)

Upon acceptance by *Journal of Nuclear Medicine Technology*, all copyright ownership for the article named above is transferred to the Society of Nuclear Medicine and Molecular Imaging. We, the undersigned coauthors of this article, have contributed to (1) data design, analysis, or interpretation; (2) writing or critiquing drafts of the manuscript; and (3) approval of the final manuscript before publication. We share in the responsibility for the release of any part or all of the material contained within the manuscript. We also affirm that the manuscript has been seen and approved by all authors. The undersigned warrant that the manuscript (or its essential substance) is **new and original**; has not been published other than as an abstract in any language or format; and has not been submitted elsewhere for print or electronic publication consideration.

We warrant that the manuscript does not contain any material the publication of which would violate any copyright or other personal or proprietary right of any person or entity. We will obtain and include with the manuscript written permission from any respective copyright owners for the use of any textual, illustrative, or tabular materials that have been previously published or are otherwise copyrighted and owned by third parties. We agree that it is our responsibility to pay any fees charged for permissions.

We also warrant that **any** human and/or animal studies undertaken as part of the research from which this manuscript was derived are in compliance with regulations of our institution(s) and with generally accepted guidelines governing such work.

We further warrant that we have herein disclosed any and all financial or other relationships that could be construed as a conflict of interest and that all sources of financial support for the study have been disclosed and are indicated in the acknowledgments.

1. Copyright transfer: The authors hereby transfer all copyrights in and to the manuscript titled above in all forms and media, now or hereafter known, to the Society of Nuclear Medicine and Molecular Imaging effective if and when the article is accepted for publication in *JNMT*.

2. Permission to reprint: The authors retain the following nonexclusive copyrights, to be exercised only after the article has been published in final format in the print version of *JNMT*.

- (a) Reprint the article in print collections of the author's own writing.
- (b) Present the article orally in its entirety.
- (c) Use the article in theses and/or dissertations.
- (d) Reproduce the article for use in courses the author is teaching. (If the author is employed by an academic institution, that institution may also reproduce the article for course teaching.)
- (e) Distribute photocopies of the article to colleagues, but only for noncommercial purposes.
- (f) Reuse original figures and tables in future works created by the author.
- (g) Post a copy of the article on the author's personal website, departmental website, and/or the university's intranet, provided a hyperlink to the article on the *JNMT* website is included.
- (h) In all the instances under clauses 2a through 2g above, the author will give proper credit to the original

publication in *JNMT* as follows: This research was originally published in *JNMT*. Author(s). Title. *J Nucl Med Technol*. Year;vol:pp-pp. © by the Society of Nuclear Medicine and Molecular Imaging, Inc.

3. Publish Ahead of Print policy: The authors understand that if and when the manuscript is accepted for publication in *JNMT*, it will be prepublished online as a Publish Ahead of Print paper. The authors acknowledge that *JNMT*'s Publish Ahead of Print papers undergo full peer review and editorial preparation, such as copyediting, typesetting, and proofreading.

Section B—to be completed by U.S. government employees.

(If the authors received any funds from the National Institutes of Health for the research reported in the work, the article is considered a “work made for hire” [i.e., a work prepared by an employee within the scope of his or her employment or commissioned as a work for hire under a written agreement], and the copyright in the article is owned by the U.S. government. The senior or corresponding author or an authorized representative of the government must sign this section.)

The authors warrant that they have contributed to (1) data design, analysis, or interpretation; (2) writing or critiquing drafts of the manuscript; and (3) approval of the final manuscript before publication. The authors share in the responsibility for the release of any part or all of the material contained within the manuscript. The authors also affirm that the manuscript has been seen and approved by all authors. The authors warrant that the manuscript (or its essential substance is **new and original**; has not been published other than as an abstract in any language or format; and has not been submitted elsewhere for print or electronic publication consideration.

The authors warrant that the manuscript does not contain any material the publication of which would violate any copyright or other personal or proprietary right of any person or entity. The authors will obtain and include with the manuscript written permission from any respective copyright owners for the use of any textual, illustrative, or tabular materials that have been previously published or are otherwise copyrighted and owned by third parties. The authors agree that it is their responsibility to pay any fees charged for permissions.

The authors also warrant that **any** human and/or animal studies undertaken as part of the research from which this manuscript was derived are in compliance with regulations of the authors' institution(s) and with generally accepted guidelines governing such work.

The authors further warrant that they have herein disclosed any and all financial or other relationships that could be construed as a conflict of interest and that all sources of financial support for the study have been disclosed and are indicated in the acknowledgments. (No royalty income or other compensation may be accepted for work done as part of official duties. The author may accept for the agency a limited number of reprints or copies of the publication.)

1. Copyright ownership: The undersigned certifies that any or all of the authors of the manuscript titled above is/are employed by the U.S. government and performed this work as part of their employment and that the manuscript is therefore not subject to U.S. copyright protection.

2. Publish Ahead of Print policy: The authors understand that if and when the manuscript is accepted for publication in *JNMT*, it will be prepublished online as a Publish Ahead of Print paper. The authors acknowledge that *JNMT*'s Publish Ahead of Print papers undergo full peer review and editorial preparation, such as copyediting, typesetting, and proofreading.
